

CERTIFICATION/LICENSURE EXAMINATION

State and National Board Examinations

Currently, Healthcare Administration, Business Management and Accounting, Medical Assistant, Medical Office Specialist, and Dental Assistant educational programs offered by NCC which lead to a career do not require any certification or licensure for employment. However, certification or licensure is highly recommended.

State and/or National licensing and/or certification and/or registration examinations or processes are the student's responsibility. NCC will provide students with information regarding test dates, locations, and fees whenever possible. Students should be aware that all test fees, unless stated on the enrollment agreement, are in addition to the tuition paid to the college. Students who choose to participate in state and/or national licensing and/or certification and/or registration examinations are responsible for paying the sponsoring organizations.

For the Vocational Nursing program, upon graduation, students are required to pass the NCLEX-VN examination in order to become licensed and employed as Licensed Vocational Nurse. For the Nurse Assistant Training program, students are required to sit for the State Competency Evaluation Exam. Should the program no longer meet the state licensure or certification requirements for the state of California, the College will inform the students within 14 calendar days.
